Turtle Odyssey is one game that I really would recommend to people who want a fun but challenging game. In this game you play as a turtle who at first gets his shell taken from him. But then he finds out that something much bigger is at stake and from here you must travel across different types of terrain, fight 4 unique bosses, and all at the same time. DIE A LOT! I MEAN A LOT! This game will present you with many different types of traps that will trick you and treasures that will be hidden throughout the maps. As of enemies you will face anything from bullet shooting fish like creatures to really wierd sounding sea urchins.

Even though this game is fairly long I kind of wish that it was a bit longer and that there was a new setting for each map instead of having the same four maps repeat eachother twice well the only difference the second time is that it is a bit harder.

Overall I would give this game a 4/5 since it is a great game but I wish it was a bit longer and I also wish that the maps didn't repeat.. This game brings so much memories when i was about 7, used to visit my neighbour just to play this goddamn game. I was godawful at it and couldn't complete it. Good times. Looking at it objectively, this game is nothing special, it's just another platformer with a cliché story. What i love about it is how it acknowledges what i just said and executes that idea in such a beautiful way. Gameplay is about 4-5 hours long depending on how familiar are you with this genre and if you want to 100% this game. The price is kinda justifiable, i'd say it's worth about 1 buck not 2. Overall i really like this game, it has flaws but my nostalgia about it doesn't let me see any. This review \u2665\u2665\u2665\u2665ing sucks, i'm out byeeeeeeee!!!! \*coughs for 2 minutes straight and dies from lung cancer\*. This game is nstalgic to me.

I played this on a windows xp, back at aorund 7

10/10 game, would play over and ver again. Fun Challenging and Nostalgic

childhood games

turtle gang !!!. don't let the kid friendly apperance fool you

10V10 would be killed by projectile shooting fish after running out of oxygen again. JESUS THIS GAME SO GOOD. This game belongs to one of my first PC games. I played with this game like 15 years ago the last time, back then I could be like 5 or 6 years old and just started to attend to first grade in primary school. I still remember that my mom wrote the game to a disc for me as a present or something and I loved to play it for hours every day. Turtle Odyssey thank you for all the old memories, I will never forget this game.

. This game confuses me
